*November 2021*

This year marked an important milestone for Acupay—the 10-year anniversary of the first Italian Yankee bond issuance using Acupay’s structure. This unique structure has allowed non-domestic entry into the Italian market for just over a decade, ensuring that cross-border investments remain attractive, accessible, and compliant.

To mark this occasion, Acupay has also launched a new Publications site, complete with a dynamic whitepaper exploring the intricacies of the Italian Yankee bond structure in greater detail. The Acupay Team invites you to [bookmark our Publications page here](#), where we will continue to document exciting developments in the rapidly-changing environment of cross-border tax.
